

# ENERGHY: Energising Global Health Innovation and Entrepreneurship Summer School 2022

## Scholarship Programme

### 1. Introduction

ENERGHY 10-day Summer School is a toolbox and a fresh experience to change perspective for a new generation of Global Health innovators. It is designed to empower postgraduate students, researchers and young professionals to create new business models with global citizen-centric solutions aimed at democratizing health for all.

The programme will sponsor some ENERGHY 2022 participants from low- and middle-income countries (LMIC). A special priority consideration will be given to candidates from Ukraine.

### 2. Eligibility criteria

ENERGHY scholarships applicants **must be pre-accepted to the course and be from a low- and middle-income country**. Please check the [World Bank classification](#) to see which countries are included within this category.

### 3. Application procedure

- Candidates **must be pre-accepted to the course** to apply for the scholarship. (If you have not applied yet, please complete the [Application Form](#).)
  - In addition, they must submit a **Motivation Letter** (300 words max), in which they include their *organisation, position, and place of work* (if applicable), and address the following questions:
    - *Do you have an existing source of funding for supporting postgraduate training? Can this funding cover the ENERGHY tuition fees and university taxes?*
    - *How will the course contribute to your career development?*
    - *Why should the scholarship be granted to you?*

The ENERGHY scholarship motivation letter should be sent by email to [energhy@isglobal.org](mailto:energhy@isglobal.org) once the candidate has been pre-accepted to the course.

#### **4. Funding**

ENERGHY scholarships cover the tuition fees and university taxes for the ENERGHY Summer School 2022 edition.

The number of scholarships will be determined by the profile of the participants and the funds available.

#### **5. Procedure for awarding scholarships**

Selected candidates will be informed via email in two phases:

**First Phase:** Results for scholarship applications received from 1 March to 23 April 2022 will be notified before 16 May 2022.

**Second Phase:** Results for scholarship applications received from 24 April to 15 June 2022 will be notified before 23 June 2022 (according to availability at this stage).

*We strongly encourage candidates to submit their ENERGHY course application as soon as possible and, once accepted, to apply for the scholarship in the First Phase.*

#### **6. Scholarship recipients' responsibility**

Once ENERGHY is completed, scholarship recipients have until 15 August 2022 to deliver a short (1-page max) report on the course experience that addresses the following questions:

- *What did you like the most?*
- *What would you like to improve?*
- *What learning will you apply immediately in your professional life?*
- *What will be your next professional steps?*
- *Would you recommend the course?*
